

CONCRETE BUCKET

Go more places than large concrete trucks can. Great for the times you can't get a truck in the place/ position you want, or a concrete pumper is overkill. Two models to choose from, a manually operated (CM55) or hydraulically operated (CH55) discharge gate model. The hydraulic discharge gate helps the operator to control the concrete flow more precisely for more accurately placed pours.

SPECIFICATIONS

Part#	9000140	9000141
Description	CM55" MUD 1/2 YARD MANUAL	CM55" MUD 1/2 YARD HYDRAULIC
Height	21"	24"
Width	54"	54"
Depth	34"	34"
Approx. Shipping Weight	420 lbs	440lbs
CapacityEstimate	Half Yard	Half Yard
Discharge Chute Size	12"x12"	12"x12"
Steel Shell	10 Gauge Steel	10 Gauge Steel
Operated	Manually	Hydraulically
