

LANDPLANE

Remove large clods and rocks while leveling and grading with the landplane attachment. Working in either forward or reverse, the landplane makes it easy to break up hard ground and level a surface. Use the landplane to peel sod or aerate soil for seeding. No more back-breaking hand-raking. Turn a loader into a powerful land-planning tool with the landplane attachment.

SPECIFICATIONS

Part #	9133022
Description	LP 79 INCH LAND PLANE
Overall Depth	49.76
Overall Height	19"
Overall Width	79"
Cutting Edge Width	1/2 X 6"
Weight	575 LBS
