

6-WAY BLADE

Standard Features:

- **Heavy Dirt or Snow** – Let nothing stand in your way when moving dirt, earth or other materials as this professional, heavy duty dozer blade surpasses expectations
- **Moldboard Tilt & Rotation** – Tilt blade ends up or down 10 degrees on each side for variable slope and/or 30 degree rotation to the right or left for a changed cut angle
- **Electro-hydraulic Controls** – Electric controls over hydraulics make it easy to position the blade with a different angle or tilt
- **4 Double Hydraulic Cylinders** – Quick connect couplers allow for easy attaching to any skid steer with over 50 HP and power the variety of angles your blade can reach without ever leaving the cab
- **Easy Transitions** – Use this blade for dirt work or snow management with a quick change of the trip springs and lock out bolts
- **Adjustable Depth Guides** – Manually change around the spacers on the skid shoes to modify blade height to control blade height and surface contact
- **Universal Mount** – Allows for one standard attachment for all skid steers, no need for special hook-ups or attachments
- **Solid Cutting Edge** – Removable, abrasion resistant steel cutting edge is standard on all blades and will plow through the majority of obstructions
- **High Quality and Out Performing** – Manufactured with US Prime Steel and inspected against high quality standards is why our employees are so proud of this Midwest made product
- **Rolled Steel Blade** – We take the time to roll our thick steel for increased pressure resistance and minimize potential breakdowns by offering one solid steel blade
- **Continual Improvement** – At HitchDoc, we take our products out year after year and push them to the breaking point, whether moving logs, earth, snow, rock, mulch, we try it all to maintain our quality levels

***Extremely Rugged.
Extremely Functional.***

6-WAY BLADE

Optional Features:

- **8 inch Blade Extension** – Attaches to the top of the blade and made from steel to increase capacity
- **Rubber Cutting Edge** – This 1 inch thick, 6 inch wide option minimizes wear on the plowing surface

STANDARD 6-WAY BLADE SPECIFICATIONS

	Part Number	HP Required	Height	Width	Weight
6' Professional 6W Dozer Blade	35-22802	50+ HP	22 in.	72 in.	920 lbs.
7' Professional 6W Dozer Blade	35-22803	50+ HP	22 in.	84 in.	965 lbs.
8' Professional 6W Dozer Blade	35-22804	50+ HP	22 in.	96 in.	1,000 lbs.

HEAVY-DUTY BOXED FRAME SPECIFICATIONS

Heavy-Duty, Boxed-Frame 6-Way Blades have a larger pivot cylinder, thicker moldboard and commercial grade backing to provide extra weight when moving rock, dirt or other heavy materials.

	Part Number	HP Required	Height	Width	Weight
6' Boxed Frame 6W Dozer Blade	7222HD	50+ HP	22 in.	72 in.	965 lbs.
7' Boxed Frame 6W Dozer Blade	8422HD	50+ HP	22 in.	84 in.	1,015 lbs.
8' Boxed Frame 6W Dozer Blade	9622HD	50+ HP	22 in.	96 in.	1,065 lbs.

Dual Dozer

Capable of 3D, GPS, Laser, Sonic, and Slope Sensing, Dual Dozer can achieve any sub-grading goals. Expect reduced labor, time and material overages.

Push-Off Bucket

Increase dump cycle times with this patent pending product all while minimizing wear and tear on equipment by no longer 'shaking' sticky materials.

Kwik-Way Angle Blade

Offering both standard and professional series options that can be used for various applications and attach to both skid and mini skid steer.
