

MINI SKID STEER BLADES

MINI V-PLOW

MINI ANGLED BLADE

Standard Features:

- **Dirt and Snow Management:** Designed for materials ranging all the way up to heavy dirt and snow management
- **Overbuilt and Out Performing:** Heavy duty blades meet high performance standards
- **Easy Transitions:** Use this blade for dirt work or snow management with a quick change of the trip springs and lock out pin
- **Reversible Cutting Edge:** Save time and money with this removable, reversible and replaceable cutting edge
- **Rolled Steel Blade:** We take the time to roll our thick steel for the best material movement, and we offer one solid steel blade which minimizes breakdowns
- **Adjustable Depth Guides:** Manually adjust the spacers on the skid shoes to modify blade height, allowing control over blade height and surface contact
- **Adjustable Skid Shoes:** Manually change around the spacers on the skid shoes to modify blade height to control blade height and surface contact
- **Universal Mount:** Multiple options to match different mini skid steer configurations
- **Continual Improvement:** At HitchDoc, we take our products out year after year and push them to the breaking point; whether moving logs, earth, snow, rock, or mulch. After many years of offering these blades, these mini skid steer blades are top-of-the-line

MINI V-PLOW

- **Variable Blade Positions:** For the 'V-cut,' position both blades backward; for 'scooped,' position both forward; for a straight cut or angle, just move the individual blades accordingly up to 30° to the right or left

MINI ANGLED BLADE

- **Large Cut Angle Rotation:** No more worries on which way to move earth or snow, this blade can variably shift up to 30° either left or right via Double Acting Cylinder with quick connect couplers to allow for easy attaching to any skid steer

Optional Features:

- **8-inch Blade Extension:** Attaches to the top of the blade and made from steel to increase capacity
- **Rubber Cutting Edge:** This 1 inch thick, 6-inch wide option minimizes wear on the plowing surface
